GRANTS

Do you like filling out forms (Data Entry) and have some spare time? We would love your help.

Grants are an amazing avenue for the P&C to access funds to provide equipment, resources and facilities for our students and school community.

We have several projects that have been planned, proposed and documentation prepared ready for grant applications or requests from companies for equipment, donations, or financial support.

Unfortunately, the current five Executives of the P&C are time poor and we would love to recruit a Grant and Donation Co-ordinator and future Grant Writer.

Our major project is to replace the current main enter footpath into the school. We applied for a Government Grant in 2019, our application was successful, and we proceeded to the Public Voting Platform.

Unfortunately, we were unsuccessful in obtaining this grant. Thank you everyone for voting and your support.

We also have smaller projects that we would love to provide.

- Group seating outside the South Classroom.
- Shelter in the South Playground.
- Decorating the student toilets with positive quotes and designs.
- North Playground upgrade- Ideas to be provided by the students
- Digital school display sign at the Main entry.
- Seating and native garden beds at the main entry.
- Upgrade facilities in the Canteen.

The ideas are endless, we just need parent and carers to support the P&C. Many hands make light work.

Do not forget to Download FLEXISCHOOLS App for all Canteen orders and Pre-Loved Uniform Sales.

Regards
